

REMARKS

As indicated above, Applicants hereby elect with traverse to prosecute the claims of Group I (Claims 6, 9-24, 33-36, 38, 40, and 42). Accordingly, reconsideration of the restriction of Group III from Group I is respectfully requested.

More specifically, Group I and Group III both relate to a base station, and more particularly to operations performed in the base station. Although the Examiner asserts that Group III has separate utility such as calculating Doppler frequency, Doppler frequency is recited in Claims 12 and 14 of Group I. Accordingly, it is respectfully submitted that Group I and Group III belong to a single invention and should be examined together in the present application.

Early and favorable consideration of this application is respectfully requested.

Respectfully submitted,
